

HANDY ENDOSCOPE SEARCH KIT

The Handy Endoscope Search Kit comprises of a low cost 12mm rigid endoscope, coupled to a new LED lightsource handle. This makes an ideal basic search kit. Tests viewing inside narrow spaces provides sufficient illumination to see 300mm away. For general search behind panels, bulkheads, under floors, ventilation ducts, pipes etc.

The Handy Endoscope Search Kit is used by law enforcement, customs officers, bomb technicians and technical surveillance countermeasure search teams.
