

# KESTREL PTZ3076

## 100X ZOOM MINI SURVEILLANCE CAMERA

The K3076 is an exceptionally small camera module (only 56mm in length) with integrated zoom lens, 10 x optical and 10 x digital zoom. The K3076 100 x zoom (10 x optical zoom - 10 x digital) mini camera comes complete with a pan/tilt unit on top of a remote control receiver built in a metal case with outgoing cables for power and video.

The K3076 is remotely controlled via the wireless hand-held controller supplied with the kit. Features include parameter setting by on screen display, auto focus, negative image, image reverse and frame integration.

The system is designed to be used in hazardous conditions for covert and overt surveillance. Typical operating range 500 metres.

### » TECHNICAL SPECIFICATIONS
